ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On May 8, 2017, the Company released its earnings for the first quarter 2017 which ended on March 31, 2017 and is furnishing a copy of the earnings release to the Securities and Exchange Commission under Item 2.02 of this Current Report on Form 8-K. In addition, ISG will discuss

its financial results during a teleconference call on Tuesday, May 9, 2017 at 9:00am (EDT). To access the teleconference call, go to ISG's website at www.isg-one.com. The press release is furnished herewith as Exhibit 99.1 and shall not be deemed filed for purposes of the Exchange Act.

ISG reports all financial information required in accordance with U.S. generally accepted accounting principles (GAAP). ISG believes, however, that evaluating its ongoing operating results will be enhanced if it also discloses certain non-GAAP information. These non-GAAP financial measures exclude non-cash and certain other special charges that many investors believe may obscure the user's overall understanding of ISG's current financial performance and the Company's prospects for the future. ISG believes that these non-GAAP measures provide useful information to investors because they improve the comparability of the financial results between periods and provide for greater transparency of key measures used to evaluate the Company's performance.

ISG provides adjusted EBITDA (defined as net income before net income attributable to noncontrolling interest plus interest, taxes, depreciation and amortization, foreign currency transaction gains/losses, non-cash stock compensation, impairment charges for goodwill and intangible assets, tax indemnity receivable, interest on contingent consideration, acquisition-related costs, severance and integration expense, gain on extinguishment of debt and bargain purchase gain) and adjusted net income (defined as net income plus amortization of intangible assets, non-cash stock compensation, foreign currency transaction gains/losses and non-cash impairment charges for goodwill and intangible assets, interest on contingent consideration, acquisition-related costs, severance and integration expense, gain on extinguishment of debt and bargain purchase gain, on a tax-adjusted basis) and selected financial data on a constant currency basis, which are non-GAAP measures that the Company believes provide useful information to both management and investors by excluding certain expenses and financial implications of foreign currency translations, which management believes are not indicative of ISG's core operations. Certain prior period amounts have been reclassified to conform to the current period presentation and definitions of non-GAAP measurements. These non-GAAP measures are used by ISG to evaluate the Company's business strategies and management's performance.

Non-GAAP financial measures, when presented, are reconciled to the most closely applicable GAAP measure. Non-GAAP measures are provided as additional information and should not be considered in isolation or as a substitute for results prepared in accordance with GAAP.

STAMFORD, Conn., May 8, 2017— Information Services Group (ISG) (NASDAQ: III), a leading global technology research and advisory firm, today announced financial results for the first quarter ended March 31, 2017.

“ISG had an excellent first quarter, marked by record-setting revenues. Our growth was driven by increasing client demand for ISG Digital Advisory Services, including Robotic Process Automation (RPA), which generated more than 30 percent of firm revenue in the quarter,” said Michael P. Connors, chairman and chief executive officer. “Our strategy is working, as we continue to capitalize on the power of our expanded portfolio of products and services on a global basis. Our performance during the quarter reflects this execution, with the Americas up a strong 58 percent and EMEA up 11 percent, despite the macro environment in Europe. Increasingly, we are top of mind for clients as they seek our research, advice and support to leverage digital technology for greater efficiency and faster growth.”

Connors also noted that the firm’s “integration of Alsbridge is essentially complete, as we go to market as One ISG, and we remain on track to achieve our synergy savings targets.”

Certain of these and other applicable risks, cautionary statements and factors that could cause actual results to differ from ISG's forward-looking statements are included in ISG's filings with the U.S. Securities and Exchange Commission. ISG undertakes no obligation to update or revise any forward-looking statements to reflect subsequent events or circumstances.

Non-GAAP Financial Measures

ISG reports all financial information required in accordance with U.S. generally accepted accounting principles (GAAP). In this release, ISG has presented both GAAP financial results as well as non-GAAP information for information for the three ended March 31, 2017 and March 31, 2016. ISG believes that evaluating its ongoing operating results will be enhanced if it discloses certain non-GAAP information. These non-GAAP financial measures exclude non-cash and certain other special charges that many investors believe may obscure the user's overall understanding of ISG's current financial performance and the Company's prospects for the future. ISG believes that these non-GAAP measures provide useful information to investors because they improve the comparability of the financial results between periods and provide for greater transparency of key measures used to evaluate the Company's performance.

ISG provides adjusted EBITDA (defined as net income before net income attributable to non-controlling interest plus interest, taxes, depreciation and amortization, foreign currency transaction gains/losses, non-cash stock compensation, impairment charges for goodwill and intangible assets, interest on contingent consideration, acquisition-related costs, severance and integration expense, tax indemnity and bargain purchase gain), adjusted net income (defined as net income plus amortization of intangible assets, non-cash stock compensation, foreign currency transaction gains/losses, non-cash impairment charges for goodwill and intangible assets, interest on contingent consideration, acquisition-related costs, severance and integration expense and bargain purchase gain, on a tax-adjusted basis), adjusted net income as earnings per diluted share and selected financial data on a constant currency basis which are non-GAAP measures that the Company believes provide useful information to both management and investors by excluding certain expenses and financial implications of foreign currency translations, which management believes are not indicative of ISG's core operations. These non-GAAP measures are used by ISG to evaluate the Company's business strategies and management's performance.

ISG reports results in U.S. dollars, but does business on a global basis. Exchange rate fluctuations affect the U.S. dollar value of foreign currency revenue and expenses and may have a significant effect on reported results. The discussion of ISG's financial results in this release includes comparisons with the prior year in constant currency terms, using consistent exchange rates. Management believes this information facilitates comparison of underlying results over time.

Non-GAAP financial measures, when presented, are reconciled to the most closely applicable GAAP measure. Non-GAAP measures are provided as additional information and should not be considered in isolation or as a substitute for results prepared in accordance with GAAP. A reconciliation of any forward-looking non-GAAP estimates contained herein to the corresponding GAAP measures is not being provided, due to the unreasonable efforts required to prepare it.
